

Case Study

Educational Sector

Various surfacing projects, Senior schools throughout Kent, London and the South East

Period: Autumn 2015

Scope: Planing | Surfacing | Sports Marking | Educational Markings

Introduction:

We are an independent family run business approved in KCC Trading Standards, accredited with Investors in People and also a CSCS Platinum awarded company.

All our operatives are CRB Police checked and hold the relevant CSCS Highway Maintenance and CPCS Specialists Construction Equipment cards relevant to their trade. All of our project managers and supervisors are qualified to SMSTS and NRSWA.

Recent Projects:

Since trading in 1991 Swift Surfacing Limited have undertaken a vast amount of school projects throughout London and the South East of England: these include resurfacing of existing playgrounds, reconstruction of car parks and various sports and line marking works to name a few. Swift Surfacing Limited offer a detailed site survey to outline cost effective solutions to improve any existing hardstandings to school facilities. Detailed phasing, traffic and pedestrian management is produced from Swift Surfacing's office based team to be adhered to by their on site team which allows for smooth operations and minimises any disruption throughout the works to maintain the school teaching priorities.

Testimonials:

" We would recommend Swift Surfacing Ltd for their attention to detail and ability to manage the whole project from start to finish - with the least possible disruption and with a very personal approach all the site workers were very polite and considerate and were obviously very used to working in school environment "

Mrs Alison Pruss
Head Teacher.

" Throughout the building process we found Swift Surfacing Ltd to be very efficient, reliable and customer friendly. We had no issues with the building process and we have been left with two new playgrounds to be proud of "

Me Paul Castle
Business Manager
